

Our Sustainability Policy

Mission Statement

The business is committed to maintaining and continually looking to improve our practices towards the environment and sustainability. With the support from the Board of Directors we recognise that this is a journey that requires a focus and engagement at all levels of the organisation. To support our desire, we have partnered with Green Tourism to provide perpetual and credible accreditation commitment to sustainability involvement.

Our sustainability areas are focused on the following sectors:

People: Communication – awareness – community – health and wellbeing – equality, diversity and inclusivity

Planet: Energy – water – waste – carbon – chemicals

Places: Destination – experiences – travel – food and drink – biodiversity

Our business cares about our community, our guests, and our planet. We understand the need to protect our natural environment and limit the day-to-day impact of our actions. We aim to follow and champion good sustainability practices, to reduce the environmental impacts of our activities and to give something back to our environment by:

- Complying with all relevant environmental regulations and legislation.
- Improving our resource efficiency including our energy, water, and raw material use.
- Working with our suppliers to reduce the impact of our supply chain and to encourage them to develop environmental best practice.
- Promoting waste minimisation, re-use, recovery, and recycling, including the number of single use items within our business.
- Regularly reviewing the environmental impact of our activities and work to reduce our overall impact.
- Adopting environmentally friendly cleaning products and techniques.
- Supporting our community, including local groups, charities, and projects.

Mark McHugh

Group HR & Health & Safety Manager
